ABOUT COMPANY

Since 1961, McGee Corporation has become the industry leader in providing superior, engineered to order canopy systems. We deliver value with a state of the art 175,000 SF manufacturing facility that enables quality control and precision to be engineered and manufactured into every product, every time. Our unique manufacturing capabilities and dedicated, experienced employees enable your materials to be delivered on time, reducing onsite construction costs, and providing you with a quality finished product that will last for years.
